

What Educators Are Saying

Digital Content that Engages Students

"Students can experience things they never would be able to experience otherwise. It is **very engaging** and **my students always cheer** when I pull it up."

Lamar ISD

"I have used this program for the past two years and it really is **a work of wonders**. The slides probe questions to keep students engaged during the lesson. **I would recommend EduSmart to every educator!**"

New Frontiers Charter School

"My sixth graders **love going up to the interactive board**, the drag and drop activities, the labs. They pick up things that I don't think they would have gotten just from a textbook."

Lake County, Florida ISD

Teaching Tools that Make **STEM** Instruction Easier

"With EduSmart, **I can ask a teacher to teach a lesson even though they have no knowledge of the concepts** we are trying to teach. They can do it correctly because the program guides them through it."

Midland ISD

"EduSmart Science is **a teacher's dream come true**. It makes abstract and difficult concepts easy, more real, and comprehensible for the kids. EduSmart offers **the most vivid graphics and animations of any tool** we've used."

Aldine ISD

No Fluff. Just Fully Aligned (TEKS) Content.

"I like that there is very little extra information. **EduSmart is aligned with TEKS.** Kids love the visuals and the video games, and at the same time it hits all the standards."

Houston ISD

"It **meets the benchmarks, standards and academic vocabulary** that we use. It is an easy way to introduce content a little deeper than we might have been able to do on our own."

Lake County, Florida ISD

"Teachers like that it's **concise and to the point**, unlike other online programs with lots of "fillers" added which translates to unused information."

Fort Bend ISD

Adaptable Content for Special Populations (ESL)

"EduSmart really benefits our ESL students, especially in 2nd and 3rd grades. Pretty much all the **topics are taught in Spanish.**"

Houston ISD

"EduSmart has **helped us incorporate our special ed students** and limited English populations, through the visuals, pauses, videos and audio. It all integrates well, and gives those students the tools they need."

Pasadena ISD

Let EduSmart™ Help You Transform STEM in Your School.

EduSmart has been helping schools expand STEM education for more than a decade. Schedule a free demo to see how we can help you engage your students and improve their performance, with teaching tools that make STEM instruction easier. Your teachers will thank you.
